## **Sierra Club Incident Report Instructions**

The Incident Report provides the Sierra Club with the information it needs to monitor and learn from incidents throughout the outings programs and to determine whether additional investigation is required. Trip leaders are responsible for reporting all incidents and illnesses **immediately** after the outing using this Incident Report. Failure to report incidents may jeopardize the leader and the Sierra Club. During the time of the incident, use the Patient Report or similar medical field assessment form. You can download both the Incident Report and Patient Report from the following extranet site:  
<http://www.clubhouse.sierraclub.org/outings/forms/>

### **An Incident Report must be filed for:**

- A fatality.
- Any incident that requires search, rescue or evacuation.
- Any injury that requires advanced first aid.
- Any injury or illness that could have future complications or require medical attention after the outing (e.g., animal bite or severe sprain).
- Any act of suspected sexual harassment or child abuse.
- Any act that violates the law.
- Any act that results in property damage that could result in a claim.

### **An Incident Report does not need to be filed for:**

- Minor injuries such as scratches and blisters.
- Illnesses that will not likely have future complications.

**An Incident Report *may* need to be filed with only your sponsoring entity for other issues** such as problem behaviors, “near misses”, etc. Check with your entity chair for such additional entity reporting requirements.

### **Please fax/email and mail the original Incident Report including the following items:**

- Sign-in sheet or individual Liability Waiver.
- Participant Medical Form and/or Patient Report, if applicable.

### **Please send your report to:**

Email reports to: [program.safety@sierraclub.org](mailto:program.safety@sierraclub.org)

After emailing, mail original report, medical forms & participant waivers to:
