

5 Reasons ETC2024 is in Winnipeg!

1 Leading in Sustainability The ETC community has asked for a meeting destination that authentically “walks the talk” of sustainability practices. On the list of world's greenest cities, Winnipeg is taking a lead role in creating sustainable community -- Home to the International Institute for Sustainable Development, comprehensive sustainability practices in food systems, and water and waste management programs, renewable energy, green buildings and transportation systems including Winnipeg's LEED's certified Winnipeg Richardson International Airport terminal.

2 Overall Budget Savings at the [Delta Hotel](#), a Marriott 4-star property. ETC2024 will have convenient, centralized meeting rooms, greatly discounted rates (\$148 USD single/double), which is adjacent to a glass-walled International Bazaar space, two networking pubs and miles of indoor skywalks to downtown shops, restaurants and the swanky Hargrave Street Market.

3 Stellar Special Events including a progressive Community Dinner held within Winnipeg's stunning architectural icon, the [Canadian Museum of Human Rights](#). This is Canada's newest national museum located on Indigenous ancestral lands on Treaty One Territory and the only museum in the world solely dedicated to the evolution, celebration and future of human rights using the latest technologies, the oldest forms of communication and the dramatic power of art—reinforcing the importance of rights for all.

4 Diversity & Multiculturalism Winnipeg has the largest urban population of indigenous peoples in Canada. Tapping into Winnipeg's rich repository of cultural and human resources has allowed ETC, in collaboration with Tourism Winnipeg, to curate four of the most transformative and experiential [Learning Labs](#) spanning art, architecture, history, sustainability, fashion and culinary arts. Go deep into local neighborhoods, trendy galleries, artists meetings, indigenous culture, and museums including the world's largest collection of [Inuit Art](#) in the world and Assiniboine Park with the Polar Bears Sea Ice Passage.

5 Central and Accessible Location in one of Canada's most historic and architecturally significant commercial city centers. Winnipeg is midway from both east and west coasts, with an all weather ready airport located only 15 minutes from downtown and air lift from major carriers including many nonstop flights from US cities.
